Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 09-08-04 has been entered.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Diana Fu on 09-30-04. The application has been amended as follows:

In the specification, page 1, line 4, " (attorneys docket number...)" is now --- 10/003,729, which is now U.S. Patent no. 6,724,267--.

In claims 4 and 6, line 2, " stage a plurality" is now--stage having a plurality--.

Claim 11 has been canceled due to possible new matter issue with regards the phase difference recitation.

3. The following is an examiner's statement of reasons for allowance: The examiner could not find fair suggestion for the phase synchronous multiple LC tank oscillator with stages oscillating synchronously and the connections recited between stages... The patent 6,724,267 does not present double patenting issues, the claims do not recite phase synchronous operation in addition to all else claimed.
